Skills

ABOUT

I am a Web Developer with three years of experience, demonstrating expertise in crafting robust and scalable solutions.

I describe myself as a passionate developer who loves coding, a tech enthusiast, and one who tends to learn new technologies.

I am adept at collaborating with team members to achieve shared objectives, leveraging strong interpersonal skills to contribute effectively to collaborative projects.

WORK EXPERIENCE

★ Team Lead - Full Stack Web Developer

Acetrot | Feb 2023 - Present

Led a six-person development team, ensuring effective collaboration and successful project execution.

Communicated with clients and stakeholders to understand project requirements and ensure smooth completion.

★ Full Stack Web Developer

Acetrot | Feb 2022 - Feb 2023

Designed databases for new web applications and tailored them to specific requirements.

Integrated commercial websites with the Razorpay Payment Gateway for streamlined payment processes. Utilized Amazon Web Services, including RDS, S3, and SES, as needed for various websites.

Effectively managed production and staging web applications on servers through Laravel Forge.

★ Jr. Backend Developer

Acetrot | Feb 2021 - Feb 2022

Developed web applications using Laravel, adhering to MVC project structure, PHP, and MySQL, to meet specific client requirements.

Collaborated with the app development team to design and implement RESTful APIs for various projects.

Worked on conditional rendering, and the creation of complex, interactive forms using technologies such as Livewire and Vue.js to enhance user interactivity.

Additionally, I gained valuable experience in agile development methodologies and version control systems.

★ Customer Support Executive (Part Time)

HGS

Offered support and resolved customer queries through the Support Department
